

Fort Campbell MWR Archery

SAFETY REGULATIONS AND PROCEDURES

1. New archers must make themselves known to facility personnel for orientation on safety and field procedures.
2. Listen carefully to commands given by MWR Staff / Range Safety Officer (RSO).
 - “Clear to Fire” – you can nock the arrow at the firing line and shoot the target.
 - “All Clear – Retrieve Your Arrows” – you can go down range and retrieve arrows.
 - ANYONE can call “CEASE FIRE” or “HOLD” in an emergency. DO NOT release an arrow. Safely relax the bow arm and wait for additional commands.
3. Do not retrieve anything in front of the shooting line (even if it is within reach) until you hear the ALL CLEAR command.
4. Do not nock or draw an arrow unless you are at the shooting line and unless MWR Staff / RSO has given everyone the command CLEAR TO FIRE.
5. Never cross the firing line until the ALL CLEAR command has been announced.
6. Always use field points at this Archery Range. Broadheads or Blunts are not allowed.
7. Never approach the shooting line without inspecting your equipment for damage.
8. Never run while retrieving your arrows; you could hurt yourself with an arrow lodged in the ground or fail to stop in time and hurt yourself with the arrows lodged in the target.
9. Make sure no one is standing immediately behind you when pulling out an arrow from the target as you could accidentally hurt them when forcefully pulling the arrow out.
10. If an arrow travels too far and lands behind the Arrow Stop, make sure MWR Staff / RSO / Other Shooters are aware of this before you retrieve the arrow as you may not be visible to others on the range.
11. Under no circumstances should an arrow be shot at an angle greater than that necessary to reach the target.
12. Do not shoot any arrows beyond the left and right limits.
