INFLATABLES / PARTY TENTS - RENTAL POLICIES

Delivery - Starts at \$200 and \$25 per additional item.

Customer Pick-up- Requires either an open bed truck or trailer and sufficient labor to load equipment. GTG personnel are available to assist.

Power Supply-All Inflatables need constant air pumped by means of electric blowers. Electric blowers require large amounts of electricity to power them, which means in a normal household you can only use one blower/plug outlet/circuit breaker. Customer is responsible for providing the electricity and/or water supply, if the inflatable is water themed.

Requirements-All Inflatables and Party Tents are required to be secured to the ground by way of four (4') foot stakes. A work order must be initiated by customer to 'Call Before You Dig' contact center a week prior to event. Pick a spot at least twenty-five (25') feet away from any structure, level ground (grass is preferred), and away from overhead obstacles (i.e. trees, power lines, low flying aircraft). On day of event be ready for set-up (e.g. Do you know where the item is being placed?, Is the chosen area of placement clear?). As a last resort, stakes may not be an option, weights can be used to secure Small or some Medium Inflatables and Party Tents (Frame Only). GTG has a limited amount of weights available and needs to be notified if this is your only option.
