Prioritizing Bills:

Managing limited funds can be stressful. In times with limited income cut unneeded services as much as possible, limited wants and focus on needs. Set as much money to the side you can to cover expenses that must be paid. To build that list and possible consequences utilize this worksheet:

https://files.consumerfinance.gov/f/documents/cfpb_your-money-your-goals_prioritizing-bills_tool.pdf

If you can't pay a creditor (car loan, home loan, credit card, cell phone, etc.), contact them prior to the due date to see if there is any source of help for consumers facing financial hardship. They may be able to assist you through that period of financial stresses.

Other Resources:

Contact your financial institution to see if they are offering any short-term financial solutions like 1-month loans or 0% borrower options. Pay close attention to the repayment terms as many of these options are to take the full amount of funds back once pay starts again.
