Kentucky

The Kentucky constitution establishes the prerogatives of the parents to choose the formal education for the child. Therefore, parents may choose to homeschool their child. If a parent chooses this option, they take complete responsibility for educating their child. The parent/guardian selects the curriculum and educational materials. There is no state financial assistance for families who choose this option.

Families must notify the superintendent of the local school board in writing within ten days of the beginning of each school year with the intent to homeschool their child(ren)
