INFLATABLES / PARTY TENTS - RENTAL POLICIES				
Delivery - Starts at \$200 and \$50 per additional item.				
Customer Pick-up - Requires either an open bed truck or trailer and sufficient labor to load equipment. GTG personnel are available to assist.				
Power Supply - All Inflatables need constant air pumped by means of electric blowers. Electric blowers require large amounts of electricity to power them, which means in a normal household you can only use one blower/plug outlet/circuit breaker. Customer is responsible for providing the electricity and/or water supply, if the inflatable is water themed.				
Requirements - All Inflatables and Party Tents are required to be secured to the ground by way of four (4') foot stakes. A work order must be initiated by customer to 'Call Before You Dig' 811 contact center a week prior to event. Pick a spot at least twenty-five (25') feet away from any structure, level ground (grass is preferred), and away from overhead obstacles (i.e. trees, power lines, low flying aircraft). On the day of your event to be ready for set up, know the following information: Location item is being placed, and be sure the chosen area of placement is clear. As a last resort, stakes may not be an option, weights can be used to secure Small or some Medium Inflatables and Party Tents (Frame Only). GTG has a limited amount of weights available and need to be notified if this is your only option.
